1	PRIMARY CENSUS ABSTRACT (PCA) :- The PCA gives the data on number of houses and households, total population, Scheduled Castes and Scheduled Tribes, population in the age group 0-6 years, number of literates, number of main workers classified by nine fold industrial categories, marginal workers and non workers. These data are available down to village level for rural areas and ward level for cities and towns. The PCA data for India, States, Union Territories, Districts and Towns is available on one floppy in dBase III+ format. The village and ward wise PCA data for each State is available in the number of floppies as shown in the statement given in the next page.	500
2	VILLAGE DIRECTORY :- The village directory gives information for each village on the availability of educational and medical facilities; drinking water, post and telegraph facilities; days of market; communication facilities (bus stop, railway station, waterway); approach to village; nearest town and its distance; power supply and staple food of the people and land use pattern (area under forest, irrigated and unirrigated land, culturable waste and area not available for cultivation). These data are available in dBase III+ format and the number of floppies for each state is as shown in the statement.	500
3	ECONOMIC TABLES (B-SERIES) :- The data on main workers, marginal workers, non workers and non workers seeking work are presented in this series of tables. Data on classification of main and marginal workers by industrial classification of work, occupation, age and educational level, non workers by main activity, age and educational level, and those seeking work by age, educational level and whether they have worked before are available. The number of floppies on which these tables are available at state and national level is shown in the statement overleaf. This is available as spreadsheet files in WKS format.	500
4	SOCIO-CULTURAL TABLES (C-SERIES) :- This series of tables give the data on age, marital status, educational level, school attendance, mother tongue, bilingualism, trilingualism and religion. Data on marital status, educational level and school attendance are available cross classified by age groups while data on school attendance in the age group 5-19 years has also been classified by work participation. The number of floppies on which these tables are available at state and national level is shown in the statement. This is available as spreadsheet files in WKS format.	500
5	MIGRATION TABLES (D-SERIES) :- Data on migration characteristics like place of birth, place of last residence, reason for migration and duration of residence at the place of enumeration are available through these tables. Data on educational level, economic activity and age distribution of the migrants are also available in these tables. The number of floppies on which these tables are available at state and national level is shown in the statement overleaf. This is available as spreadsheet files in WKS format.	500
6	FERTILITY TABLES (F-SERIES) :- This series of tables provide data on female age at marriage, number of children ever born and number of children surviving to ever married women and birth to currently married women during the last year. Data on age at marriage have been classified by duration of marriage while all other data are classified by age of the woman. At state level data are also available by religion, educational level and work status of the woman. The number of floppies on which these tables are available at state and national level is shown in the statement overleaf. This is available as spreadsheet files in WKS format.	500
7	HOUSING TABLES (H-SERIES) :- These tables give information on housing and household amenities viz the type of material used for construction; tenure status, number of rooms and household size; availability of electricity, drinking water supply (by source) and toilet facilities to the household and type of fuel used for cooking. The tables for India, states and union territories are available in two floppies in spreadsheet(WKS) format. Tables at state/union territory, district, tahsil, city and town level are available in dBase III+ format for each state and the number of floppies is as shown in the statement.	500
8	SPECIAL TABLES ON SCHEDULED CASTES AND SCHEDULED TRIBES :- These tables give caste/tribe wise characteristics of SC/ST population by various characteristics such as age, sex, education and marital status. Main and Marginal workers of SC/ST are also tabulated separately caste/tribe wise for characteristics like age, sex, education, industrial category and occupations. Non workers are classified by age,sex,education caste/tribe wise. Fertility tables provide information at State/District levels based on Fertility characteristics like age at marriage, duration, births, last year births, children ever born and children surviving. Besides these there are three additional tables for ST population relating to Religion, Mother tongue and Bilingualism at State/District level. The number of floppies on which these tables are available at state level is shown in the statement. This is available as spreadsheet files in XLS format.	500

Price :- One CD Rs. 100/- for one state of each series
One CD Rs. 500/- for all states of each series
One CD Rs. 2500/- for all series (the entire data as above)
