ABSTRACT

A Collaboration between RIWI Survey Corp and CGHR started by Michael Palmer (CGHR RA) and Tiffany Mok (RIWI PM) in May 2016. CGHR drafted the survey questions with RIWI input. RIWI executed the survey on their proprietary platform using their Randomized Domain Intercept Technology. The survey was completed June-July 2016. It was a survey of randomized internet users, all ages, genders, etc. Free and voluntary answers. No compensation for respondents. Geospatial data collected to city level. It is an NCD risk factor pilot study with agreement to disseminate findings and validate results against traditional global health surveys. Riwi links: . . .
